E-mail subject line: **Mid-Hudson Watershed Floodplain Mapping Needs and Risk MAP Discovery Project – Upcoming Webinar**

Dear [Community Official],

The Federal Emergency Management Agency (FEMA) in partnership with the New York State Department of Environmental Conservation (NYSDEC) has started a new [Risk Mapping, Assessment, and Planning](#) (Risk MAP) “Discovery” project for the Mid-Hudson watershed which includes all or a portion of your community, the [Township of X]. FEMA's Risk MAP program is designed to provide quality flood maps, other tools including data, and support to assist communities in taking action to reduce flood risk.

FEMA and NYSDEC will ask for input from communities and organizations in the Mid-Hudson watershed to gather information about local flooding issues and mitigation activities; flood mapping needs; recent development; and other concerns related to flood risk. The results will be used to determine if a Risk MAP project, such as updated floodplain mapping, is necessary.

### **How can this project help my community?**

Your involvement is very important because it will be part of the information used to prioritize what should be developed during the Risk MAP project (e.g. revised flood analysis, mapping, or other tools). The opportunity to talk with FEMA and NYSDEC about challenges communities face while managing flood risk is a critical component as it ensures we hear directly from you about **local flooding problems, flood mapping needs, and other related issues that communities in the watershed may be facing.**

### **How can I participate in the process?**

You are invited to attend a Pre-Discovery webinar during which FEMA and NYSDEC will provide an overview of the Risk MAP program and the Discovery project. Please find the dates and times for each webinar listed below. **Please RSVP to [gracevinson@clarkgroupllc.com](mailto:gracevinson@clarkgroupllc.com) with your choice of session by May 3, 2016.** If you have questions about the project prior to the webinar, please contact the NYSDEC team at (518) 402-8185 or at [Floodplain@dec.ny.gov](mailto:Floodplain@dec.ny.gov).
